The Nuts and Bolts of signing up for Pi

Let's begin by going on your mobile phone to

<https://minepi.com/yorkie226>

where you can use my Username – **yorkie226** – as your invitation code. You may think the 'signing up' process is a bit confusing, I did at first: don't worry, you will soon get the hang of it! Remember, all this is done via your mobile phone. Take a few minutes to view the video clip which tells you a little of what **Pi** is about.

At the bottom, in a **YELLOW** button you'll see '**Download App**.'

Click on that button and you are taken to a **PURPLE** page which reassures you that you can start earning **Pi** coinage right away.

Scroll down and fill in your First Name, Last Name and an Email address. There is also a Text area where you can make a comment or ask any questions. When you are ready press **SEND**.

When you first get into the 'works' of the App(lication), you will be choosing a 'User Name' for yourself e.g.: **fredflintstone367** – it's your choice.

At the top of the **Purple** page there is a **BLACK** header band, and you will see numbers going across there, which, when you start **MINING** (minting) your own coin, will update themselves **CONTINUOUSLY**, and will never stop, even if you want to **CLOSE** the **Pi Network** programme, just as long as your mobile phone has enough battery charge, the earnings will continue to update for you.

Now look at the top Left-Hand corner, where you will see three parallel **WHITE** lines. **PRESS** on these to reveal a 'drop-down' list of **ELEVEN** separate topics: you should read through these at your leisure, they tell you lots of the background development stuff and I especially like Core Team – where the developers explain what they have in mind here

PROFILE

Inside here you will find eight (8) headings:

Username: in our example [fredflintstone367](#)

Invitation code to SHARE: - in our example [fredflintstone367](#)

Referral link to SHARE: <https://minepi.com/fredflintstone367>

Received reactions: YES or NO (not everyone will understand or wish to join us)

Settings:

Hide real name – ON/OFF button – *an option to display your real name online – or not*

Account verification

Phone verification [Tick box]

Facebook verification [Tick box]

Password [Tick box]

When you have three **GREEN** ticks here, you're set to start mining,
and your new account is secure

Ads (adverts) ON/OFF button

(Allowing the adverts helps to support the background costs of running this project

This last option will only appear AFTER you have completed the first three-day clicks.)

At the very bottom is an **ORANGE** box – **SIGN OUT**

Go back to the **PURPLE** page (where you found the 3 **WHITE** lines) – look to the **RIGHT** side, there are **FOUR** options

Chat – with live comments – to and fro – between colleagues

SHIELD (a quartered shield) with a percentage % - your **MINING** progress.

People – shows how many **MINERS** have joined to work in your **MINING** team

Lightning Button – shows your earning rate in fractions of **Pi per hour**

LIVINGSTONES
RE-BUILDING COMMON LAW DEMOCRACY

Inside the Lightning Button there are FOUR stages, the first three as we progress from being a **Pioneer** to being a **Contributor** to becoming an **Ambassador** and lastly a point about **Nodes** (don't worry about **Nodes** just yet, remember that all this project is a work in progress and things will update as we go along).

Just one final thing to watch out for:

Note: Because we don't want any fraudsters in here, for the first three DAYS (periods of a full 24 hours) you will have to pop back under the Lightning button at PRECISELY the same time of day that you first began to MINE, and CLICK to re-commence the MINING for the second and the third day at quite exactly the time you started. This will prove that none of us is in fact a ro'BOT', that we are real human people wanting this project to go large..

Please set this to start at a time to suit your daily routine. I set mine up at after midnight, which is not the best idea – as it can't be varied!.

I know that is quite a lot to take in, but if I can manage it at my 78 years, I'm sure we can all get used to it very quickly. Ring my mobile, or text or email if there are any questions. We do want you to succeed; this coin is going to be bigger than Bitcoin.

Sincerely yours

Grant Smith
