9. after the live interview with Reiner Füllmich, Dr Sam White was joined by Advocate of the Indian Barr Association, **Dipali Ojha**, who confirmed a petition is filed in the High court in Bombay on the 25/11/21 against the V manufactures.

They have also instructed the Central Bureau of Investigation in India to look into the deaths of a number of victims due to the V. 12. If any police force refuses to treat you as a victim of crime or provide a crime number remind them of the national crime recording standards as detailed below.

If you believe you are a victim of crime, a crime report must be accepted. By the evidence being submitted to the Metropolitan Police we believe each individual has the right to be classed as a victim of crime.

The injuries attributed to the V must be documented by the **local** police and a **local** crime number issued. Injuries could be anything from actual bodily harm through to grievous bodily harm, manslaughter or ultimately murder.

Those in government, the NHS and the MHRA all knew about the dangers of the V, (proof of this was provided to the Met) yet have done nothing to stop it. In fact, they all continue to promote it as being the only safe remedy which it is not.

ALL U.K. CHIEF CONSTABLES HAVE BEEN CONTACTED THEREFORE THIS INFORMATION SHOULD HAVE BEEN FILTERED DOWN TO ALL CONSTABLES AND CIVILIAN STAFF TO BE MADE AWARE AND TO DEAL APPROPRIATELY.
