

## LEGAL ENTRAPMENT, PERSONAGE & BARRATRY - ADMIRALTY STATUTES

The text here below is taken from a recent piece of research, where the writer is preparing to finally disentangle himself from the web of deceit which masquerades as our 'government'. Please, read this background explanation first, then, at the end, fasten your seatbelt, take two aspirins with a glass of water and get ready for a surprise.

### The Background Conspiracy

"Personage and Barratry" This is what the lawyers, bankers, and politicians have used to enslave us.

**GLOSSA:** ~ Have you ever wondered why the SURNAME is often written using the ALL CAPITALS TEXT? (*It's called Glossa*)

You are using a legal name, or a legal fiction and **this is fraud**. Understand that the name that you *think* is you, is actually split into separate entities. The 'Christian' name (**Christ Name**) and the Surname (**slave-serf- name**). When our parents register our birth (*actually, they are informing on you*) they probably believe it is a nice thing to do and they are proud of their new child so want the world to know. However, they register you (*the child*) and the names which they are giving you (*given name*) to the **Crown Corporation LTD**. as their Property by your Birth Certificate. You become literally the property of the Crown Corporation, a slave.

Back in the day, the nurse would prick the heel of the baby and then take a footprint of it using the baby's own blood. They would also take the blood type to check to see if the baby was from their black bloodline. If it proved positive, then the baby would become 'stillborn'. The footprint and the birth certificate (*the real one, not the bit of paper you get*) is then sent to the **Vatican** for storage. The storage of our souls.

Your birth certificate is also given a **CUSIP** or **bond** number. This bond is then traded on the stock exchange; you are literally 'stock' that is sold many times on the stock exchanges. Your actual physical value is also used as collateral (from the bond) allowing the United Kingdom LIMITED, a private limited company, and **never** a government, to take out loans from private banks such as the Bank of England. That bank is yet another private limited company and has nothing to do with England or a government.

Profit is made from you by the way of legal (*not lawful*) fines (from Legislation or

## LEGAL ENTRAPMENT, PERSONAGE & BARRATRY - ADMIRALTY STATUTES

Acts & Statutes), utility bills and many forms of taxation. In the early 70s the UNITED KINGDOM LIMITED took the backing of gold away from the British Pound and now the currency (*fiat currency which is never money*) is now backed not by Gold or Silver, but by your physical value or manpower or future sweat equity.

(This could be rectified tomorrow, if the 'Bradbury' Pound were reintroduced - see <https://livingstones.blog> for that one, and my thanks to John Weston Briggs for his excellent exposé of banking corruption).

When you are born, let's say in England, you enter the 'waters' of the English jurisdiction. Your parents are in reality then informing England that a new 'ship' has entered their waters. When the birth certificate is completed by your parents (*they were informants*) the birth certificate creates an implied 'company' of you your SURNAME.

The birth certificate then tells UNITED KINGDOM LIMITED (*a privately owned corporation and a different jurisdiction*), that your ship (*you, in fact*) has entered their waters. All these implied corporations (*you*) and the UNITED KINGDOM LIMITED are considered 'ships' as we are all governed under the law of the sea, known as *Admiralty or Maritime Law*. There is no actual, real 'ship', but a document vessel, which in our case was our 'Berth' Certificate, created by the Doctor when they 'docked' you in the hospital WARD, making you a *ward* of the state (*owned*).

Next time you visit a graveyard, have a look at the names on the headstones. You will notice that they are all written in CAPITALS. These corporations are so greedy and so twisted, that they cannot let us go even after death.

Whenever you encounter any legal documents (*remember, the document is your vessel*) you will notice that your surname or sometimes all your names, just like the headstones in the graveyard are all written using ALL CAPITAL LETTERS. That is not English, it is LEGALESE.

This is all done on purpose and there are no coincidences. This way of theirs of writing with ALL CAPITAL LETTERS is not defined or recognised in The Oxford Styles Manual, which is the governing book of the English language. This means that although you may be able to read it as English, it is most definitely not English. The all CAPS or Gloss can be found within the 'Oxford Styles Manual', under *foreign-languages*, named ancient-Latin or sometimes Dog Latin.

## LEGAL ENTRAPMENT, PERSONAGE & BARRATRY - ADMIRALTY STATUTES

You usually see the ALL CAPITALS or UPPERCASE text found as a language when writing in the American Sign Language (ASL). This is a signing language used for the deaf when written down. ASL can be defined in the book '[The Chicago Manual of Style](#)' under the foreign languages header: American Sign Language (ASL) compound signs, 10.152 and '[glosses, 10.147](#)'. Thus, defining this text as a foreign language.

It also goes on to say that when written, it has no 'one to one' correspondence with any other languages on the document. The all CAPS or Gloss is also found in the Oxford Styles Manual under foreign-languages, namely Ancient Latin, however as the all-caps [UK LTD is registered in Washington D.C](#), they appear to be using the 'Chicago Manual of Style', not the Oxford styles manual version.

Putting two or more languages onto a legal document is known in law as a 'Glossa'. Black's Law Dictionary defines: '[GLOSSA](#)' - *"It is a poisonous gloss which corrupts the essence of the text"*. Meaning that by using the Glossa in a document they are trying to conceal or confuse the real facts. Just remember, we are talking about [legal](#) documents here, not [lawful](#) ones. We truly need to get our head around the difference between lawful and legal.

Go and have a check of any documents that are written within the legal realm, things like a driving licence, your passport, any fines or parking tickets, speeding tickets, court orders or a court summons. You will quickly realize that while most of the document will be written in normal English, all of the important stuff, like your name etc are all written in the ALL UPPERCASE or CAPITALS style language.

As we established earlier, the ALL UPPERCASE and or CAPITALS text and the plain English text cannot be read as one text in a document, they have no jurisdiction over one another, they are simply not compatible. It is like writing half English and halb-Deutsch.

So, the way to read it is, you must read all the English in one go, and then go back to read the ALL UPPERCASE.

When read like this, you will quickly realise that these court orders, council tax demands, speeding tickets and all other legal documents make no sense whatsoever.

They can only make sense when we assume that it is all plain English and we read

## LEGAL ENTRAPMENT, PERSONAGE & BARRATRY - ADMIRALTY STATUTES

it like that, once you take one away from the other it renders the document useless.

Since the UK government is not actually a government but simply a **privately owned corporation** it can only communicate, impose fines and set legislation, acts and statutes, upon other corporations.

They then trick us into registering our names as a **corporate entity** with **our driving licences** and **passports**, then, in turn, trick us into thinking that those names are **physically** us. It successfully gets us to represent the corporately registered name and therefore bear the burden of those fines, tickets, and policies. This is a crime known as **personage** or sometimes known as **legal entrapment**.

Hand in hand with the crime of personage or legal entrapment is another criminal activity known by the term **barratry** which is **knowingly bringing false claims into court**. This is what police, politicians, judges and local councils are doing every day.

Consider the birth certificate, it has two names, your given name (Christ name) but also the surname which is not even yours. It also has two dates on it, your berth date (when the docker **BERTHED** you in the DOCK) and two languages, some in English and some in GLOSSA. This could only be done this way to confuse and trick you.

Every ACT of Parliament is directed at a PERSON or PERSONS. The **Bills of Exchange Act 1882, Section 2**, defines the word 'person', as does the Local Government Act 1888, Section 100; and Interpretation Act 1978, Schedule 1, "Words and expressions defined"; and Representation of the People Act 1983, Section 202, 'General provisions as to interpretation'.

So, in reality, a person is not what we think it is. It is in fact an 'association' corporate or unincorporate [a 'voter' is a person]. A person is not a man, male or female (Genesis 1:27).

Man is the creation of God. A Person or human, human being, etc. is an invention of man. Hue, means colour, so a HUMAN is only the colour of man, not a man:

This entire fake system has been designed for centuries as a commercial enterprise. We are being used as 'persons in commerce'. The bills, the fines, the taxes are all directed NOT at us but rather at our legal fiction, sometimes referred to as our

strawman.

To avoid this fraud and to not allow them to commit the crimes of legal entrapment on us we need to comprehend that we are man: and woman: not a person or persons and we have no CAPITALISED NAMES.

However, when we are presented with these fake bills, taxes and fines, never refuse to pay them because that will only cause controversy, and the legal society thrive and prosper purely on the creation of controversy. By removing any controversy or argument, there is nothing for a judge or magistrate to deal with.

It is simply commerce to the legal society, just business, like when the Godfather shoots his enemies, just business.

The easiest way to deal with this fraud is to always realize that the **bills, fines** etc are simply **offers to contract**. If you contract, then you have to pay. But rather than contracting, send them a counteroffer by way of **a conditional acceptance**. You then agree to pay any and all bills, fines, taxes etc in full only upon receipt of **a lawful contract**; a commercial true bill and a full and complete statement of accounts.

For clarity, a lawful contract must include full disclosure with nothing added or removed after being signed, consideration, (*meaning that both parties bring something to the table and all signatories get what they want from the contract*), lawful terms and conditions laid out in simple English, plus the **wet** signatures of all contracting parties.

For your information the word 'sign' has a silent 'G' [*that is a Masonic letter*] so, when one is signing, one is sinning. The original sin is the one our parents signed on a birth certificate bearing the name they gave you and **the surname added by the State**, handing over title and ownership of the name one is given. You are then property of the Crown Corporation.

### **More Evidence**

Just in case you thought we were making all this stuff up, or even exaggerating, let me introduce you to the Global Market Entity Identifier [GMEI]. There is a Belgian corporation called Business Entity Data (BED) B.V., itself a subsidiary of The Depository Trust & Clearing Corporation (DTCC). The former operates the GMEI legal entity identifier solution within the federated Global LEI system [GLEIS].

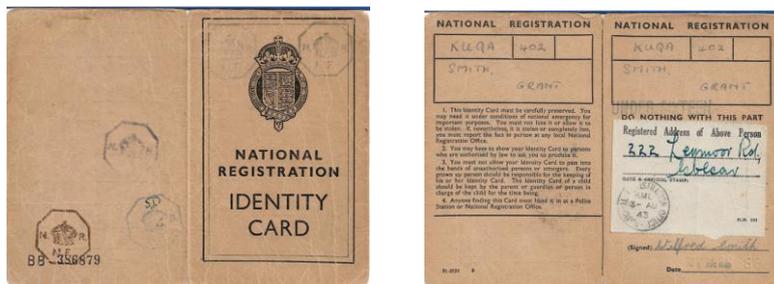

## LEGAL ENTRAPMENT, PERSONAGE & BARRATRY - ADMIRALTY STATUTES

Go search online for yourself - go to - [gmeiutility.org](http://gmeiutility.org) - which will take you to a black page with white lettering.

At the top right-hand end of the header bar, you will see a tiny 'magnifying glass' icon. Click on there to get a small drop-down box, into which you merely need to enter your National Insurance number - thus [AB 12 34 56 C] - you leave the usual spaces between the items.

When you click on there, you should get a 'landscape' page, actually, many pages, which is a list of EVERY single time that YOU, as a 'commodity' have been used by the various government bodies (and lord knows who else?) in trade, investment and borrowing (International Monetary Fund - [IMF], Bank of International Settlements [BIS], etc). since the day your parents registered you. What a very cunning plot, and so long, so subtly embedded in the minds of every generation, to simply trot along and REGISTER your beautiful new-born as a vessel on the seas of commerce.

For me, I have to date been traded 861,489 times, but then, I am in my 80<sup>th</sup> year now. I appeared on this planet just as the Austrian painter/decorator was trying to take over the world. My parents registered the name they gave me, and I still have this, my

original National Registration Identity Card; you will notice, that, even so long ago, the name was put down in CAPITALS The sharp-eyed among you may also be able to spot the administrative error on the document, but then, we were at war and all probably working under considerable stress.

- *Regis is from the Latin for 'king' - rex - regis, so we are all putting ourselves under the yoke when we 'register' for things.*

Talk about 'hidden in plain sight' and 'always read the small print'

No doubt others might be interested to know how we have all been abused for generations. Feel free to share this item.

Sincerely yours -

*grant andrew of the livingstone smith family* - Huddersfield
