

23 October 2022

Medical Healthcare Products Regulatory Agency

In the face of the overwhelming evidence of multiple deaths and millions of adverse effects post-‘vaccination’, why is the MHPRA extracting the ‘P’ by continuing to push the CON-VID jabbing..

Why do they always leave out the 'P' from their official title'?

This group of conspirators want the public to continue to believe that they have our best interests at heart.

The truth is that, for them, the 'P' is the most important of the five initials of their acronym name, but, friend, it does not even stand for **Products** in their agenda - it stands for PROFIT - vast profits every year.

There is no profit for these rogues in HEALTH, there is, however, vast PROFIT to be raked in from sickness.

Here are some facts from the Office of National Statistics - ONS

According to the ONS, in the United Kingdom alone, between January and March this year, **62,801** people have sadly died, within an average period of 48 days after having been given a ‘booster’ dose of the **Covid-19 injection** no later than the 31st December 2021.

We have inserted a link below, showing a selection of victim testimonies - see just how much contempt these so-called 'experts' in the MHPRA have for the sick.

It was 1959 when we last had a similar scenario. Does no-one remember **'CONTERGAN'**, the untested medication which was foisted upon expectant women? Offered as a relief from 'morning sickness', the result was more than 10,000 infants, across 46 nations, all born with deformities. It was Harold Macmillan who was holding the poisoned chalice of 'Prime(d) Minister at that time. No doubt, when the sordid facts became clear, there were the usual trite platitudes run out - about *'lessons being learned'*. It appears that the latest 'actors' in the Westminster Theatre have learned nothing at all.

We are now beginning to hear the sounds of their pious disbelief as the reality of the overwhelming numbers of vaccine-disabled and vaccinated dead can no longer be hidden - *"oh dearie me, I might lose my 'elite' status and have to revert to being a lower-class mortal again!"*

Let's keep focused on them and watch as they try to wriggle themselves out of this unholy horror show.
